

NUR MİNA ÖZEKES

COMPUTER PROGRAMMING STUDENT

ABOUT ME

In the 2023 academic year, I began my studies in the Graphic Design program at Izmir University of Economics. I am proficient in many Adobe applications. At the end of summer term, I successfully transferred to the Computer Programming program with a GPA of 3,07. My future goal in this field is to develop robust systems by effectively utilizing artificial intelligence in automobiles. I am an active member of the Software Club at our university and I have participated in all events organized within my department.
